BIRD REPORTS: CATALOGUE (Current 2026 - as at 8.10.26)

INTRODUCTION

Welcome to my latest catalogue which details a large range of bird related journals available for sale**. I have, over the past few months, been reviewing my various stock levels and as a result, took the drastic step of reducing ('recycling') holdings of some journals for which there is simply no demand e.g. the small-sized unbound British Birds, RSPB Birds, WeBS reports and BTO Bird Study, amongst others. As a result, I am an unable to accept any of these journals in the future, though for British Birds, I would be interested in any bound volumes (all years) or unbound issues from 1999 (the B5 size) onward.**

Going forward, I would also like to reduce my stocks of some duplicate bird reports but in a less drastic fashion. In these cases, I would be very open to ideas from any birding/charitable organisation that might be able to make good use of them, whether it be a birders' coffee room or county archive/sales officer looking for material. If you have any suggestions, please do get in touch.

Despite the ever-growing problem mentioned above I am, however, still very keen to hear from any contact who is looking to downsize or move their own collections on to a place where they can be valued. If you find yourself in this situation or hear of such, please don't hesitate to contact me as I'm always happy to cover postage or travel a reasonable distance/meet halfway etc. If a list of available reports can be provided, I am very willing to provide a specific offer price.

Alternatively, all donations are also welcome e.g. shelf clearances, and I have made a number of donations to birding groups (e.g. Birdfair, OSME, RSPB, Spurn Bird Obs) when payment was not required by the disposer. In a similar vein, I also make regular donations of reports/journals to worthy causes, birding Groups, University students and young local birders e.g. large runs of Birdwatch, British Birds and Birding World to local birders and foreign language (e.g. French, Danish) journals to good homes. In short, I make every effort to ensure that unwanted publications go to a 'good home' and are put to good use.

I welcome contact from anyone wishing to dispose of any spare bird reports & journals or to leave details of any particular wants.

Best regards,

NB I have had the odd minor problem with the Hotmail email; if you don't hear back from me within 2 days please either phone or email me on steveholliday25@yahoo.com

SERVICE: I appreciate that some contacts are only seeking to read a back paper in a bird report or perhaps a paper in one of the various journals, as opposed to making a purchase. Digital technology makes it is fairly easy to copy and email an article these days and I'm happy to do this on an ad hoc basis (within reason/copyright rules) for the foreseeable future, at no charge. Apart from what's in my Catalogue below, I do also have my own collection of bird reports plus extensive runs of British Birds, The Naturalist [YNU], the North Western Naturalist and have recently started to make inroads into The Zoologist. Please feel free to ask…

TERMS

Condition: All reports will be in good second-hand condition or better, unless stated otherwise. Inevitably, a few may have an owner's name inked or stamped inside, perhaps rusty staples for much older items, but will still be clean and useful for reference. Any which are damaged or particularly unclean I shall point this out and adjust the price when ordering. If you are particularly keen on items in near-mint condition, please make this clear.

Payment: Payment on receipt please i.e. once you have confirmed everything is OK (except for customers overseas and orders over £100). Please do not send payment with your order. **Any exchange or bank charges and postal costs (plus insurance if requested) will be charged at cost**.

Postal costs and packaging are added at cost. With respect to delivery methods, I now use the Royal Mail for all letters/parcels up to 20 kgs (e.g. large letters up to 750 gms max £3.50, parcels up to 2 kgs from £3.50, 2-10 kgs from £6.95 and 10-20 kgs from £11.20 - December 2025).

Orders for bird reports/journals over £50 attract a 5% discount and orders over £100 a 10% discount.

An invoice will be included with any postal deliveries and payment should be made asap upon receipt. Payment details (cheque, online and PayPal) are included when journals are posted out.

Returns: If, for whatever reason, you are unhappy with the reports I have posted please let me know and we'll work something out.

Wants: Please feel free to send me your wants list for future reference and without obligation to purchase. I will maintain a wants list and contact collectors on a first come first served basis.

Surplus items: **I am always interested in receiving any free items (rather than hear of them being discarded) or purchasing certain items which may be surplus to your requirements. I will of course cover any postage costs. Please send me a brief description (including condition) and details of the price required.**

Unused BTO Christmas cards from the late 1960s - £3.00 each + post or £10.00 all three inc. post

UNBOUND COPIES OF THE ZOOLOGIST AVAILABLE

I have recently acquired a number of unbound issues of The Zoologist. Many of these issues contain interesting stand-alone papers on various ornithological matters, with many typically reporting on the birds of a county or local area.

Detailed below are the 'main' ornithological (and a few mammal) related articles of interest in each issue. Each issue is in its original paper wraps, albeit some are in varying degrees of disintegration!

The many occasional notes, book reviews, society proceedings etc are excluded here but details can be provided on request. If practicable, I am willing to separate (at a reduced cost) specific articles where they do not impact on other interesting articles – if relevant, please mention this when ordering.

Cost ~~£5.00 for the first issue and £3.00 for additional issues~~ reduced to £1.00 per issue plus postage.
